“ I will miss Carroll very much.
I used to service his little tractor when his mom would call the shop. She was a class act and always let Carroll come with me in the service truck and back to the shop to get what was needed. Carroll would always ask his mom if it was okay to go and I always said yes as he loved being involved and I always included him in the whole process and he loved it and it always made my week to see him. He was a great person and I miss those days very much. I always looked forward to him calling to ask if I could come down and help him. Always smile thinking about it.
Thanks,
Rich
