“ I sit home everyday since you left me wondering why? but than i realize that there was no more for you to give. I miss you so much - 42 years is a long time being with you, i was always scared of the day that you would have to leave to move on to other things and that feeling is something i am battling with. I think about all the times that we talked about this day and you would always ask me what will i do after i am gone, and my response over the years has always been the same (I don't know). I guess you can say i am working hard on trying to figure it out. I know i have to go on without you but i wish i didn't have too cause it hurts so very bad, I know your not suffering anymore and your in a better place and your with the ones that you have yourself missed so much over the years, i know they were all their to embrace you. I love and miss you so much, until the day comes when i join you up theresay hi to everyone for me thanks.

Love, Benny
