“ We are so shocked and sad on Johns passing. He knew cars backward & forwards and helped us out so many times. He was the nicest man and a world of knowledge has gone with him. He knew all the tricks to the trade including how to get rid of MICE in your vehicle which we had a laugh over. So very sorry Melanie and all the family for your loss and for the loss to all of us. RIP John it is well deserved.

“ We went to car auctions in Connecticut several times. He brought me along so I could drive a vehicle back. He knew all the back roads and sometimes it was difficult to keep up. He helped me with an ODB scan the day before he died. I will miss him.
