“ I'm so sorry to see the passing of Mary. I grew up with John and Andrea. Andrea was in my class at school and I was saddened when she and her baby son passed. It was good to see that Mary had the heart transplant that probably saved her from an early death. But, she still died too young. My condolences to the family.

“ My condolences to Jeff, Ariana and the rest of Mary's family. I only had the opportunity to converse with Mary a few times in the yard before she was house ridden and we talked about little Jeff and Juliana. In those brief times I could feel her love for children and family. She was warm right from the start. I wish I could have had the opportunity to get to know her better but I'm glad I was at least able to meet her. It sure sounds like she was well loved by all. Everyone was blessed to have had her in their lives! My thoughts and prayers are with Jeff, Ariana, Bob and family.....

“ My condolences to Mary Frances's family. I remember Mary Frances from our junior/high school days. I recall her sharing with us kids back in the 60's that a medical group had come to Hudson to study her family's history of heart disease. She and her family were in my thoughts then, and certainly are now as well. I'll always remember her as direct, honest and with more positive spunk than any of us kids back then. She grasped the meaning of life much earlier than the average person. Take flight with the angels, Mary Frances.
