“ *I work at the Firemen's Home in Hudson, having recently been injured I was not working at the time Bill passed away. Whenever I had free time, I would sit down with him and talk. In fact, he was so well-liked, another CNA, Everton. rom the previous floor that stayed on, would spend his 15 minute break checking in on Bill, letting him know he was missed and thought of. He always lit up when he saw me and that alone made my day! We would look at the photographs in his room together. Each night I tucked him into bed, I always gave him a kiss on his forehead. He let me know he liked that when he winked and smiled. I'm glad he is in heaven now with his beautiful wife. I would comment on her beauty whenever we looked at her picture in his room. He was such a kind and gentle man, I loved taking care of him. Joanna Herdick, CNA*

“ To The Woodward Family,

Your dad was our mailman for many years when we lived on Mt. Merino. I remember him as a gentle man who was always polite and friendly. My two sons, now 39 and 37 looked forward to his visit each day. One day he delivered mail to our house by going through the open garage door. We had an old drop-leaf table that was used as a collector of "junk". He remarked that it was a lovely table and said we should have it refinished. We checked and it had been in the family for hundreds of years. Bill finished it himself and gave as a very good deal as well. Now it graces the home of our older son, and Bill's memory for the Grigsbys will live on in his beautiful restoration.

He was an angel on earth!

Sincerely,
